Notes:

1. Due to the large number of low/empty cells present when trying to break faculty salaries down by rank, appointment, and region; faculty salaries were dichotomized into 9-month and 12-month salaries. All salaries for appointments greater than 9-month were converted to a 12-month equivalent salary by taking their current salary times (11 / Monthly Appointment).
2. The sample size varied among tables due to missing data.
3. Due to missing data, values among tables should not be compared.
4. Information was not reported for cells with a frequency less than 3.
5. Table 5, page 6 represents what was reported as the College Average Starting Salaries.
6. The data was presented as reported; while it was spot-checked, it was not verified.
