

2009 AAAE – National Meeting Research Conference Report

By the numbers:

109 manuscripts submitted

Reviewers

51 manuscripts accepted

46.8% acceptance rate

All manuscripts were recommended for presentation by their reviewers

Selection criteria 1)3 of 3 reviewer recommended Accept

- 21 papers

2)2 of 3 reviewers recommended Accept + z-score

- Found a natural break after 30 papers

Fastrack:

Overall the system worked well. The biggest issue was people not in the system or not wanting to participate. Also issue with acceptance based on sliding scale. Acceptance had to be hand calculated. System was designed for low volume over longer periods of time. It might be good to have someone with experience use the program for several years to reduce learning curve.
