

**AAAE-SOUTHERN REGION**  
**2006 Call For Posters**  
**Innovative Idea and Research Poster Sessions**

**American Association  
for Agricultural  
Education**

Two poster session categories will be implemented in 2006--Innovative Idea and Research. Innovative Idea posters must be a new idea or the creative modification of an existing idea. Research posters must be related to a problem, demonstrate a need for research, and implement the research process. With both categories, the innovative idea or research must be implemented prior to submission.

Poster narratives in each category must be of potential regional or national significance focusing in the areas of teaching, communications, extension and/or leadership. A peer review evaluation process will be used based on the established evaluation forms. Up to twenty posters will be selected to be presented at the 2006 AAAE-Southern Region Conference.

Once accepted to AAAE-SR, posters will be presented in Orlando, Florida. Evaluation will be based upon the poster abstract, design and display, presentation, communication of presenter, significance to the profession, and innovation of idea or related to research poster session (see poster session evaluation sheets).

**Headings by Categories**

The poster narrative proposal should have these heading/sections when appropriate:

**INNOVATIVE IDEA**

1. Introduction/need for innovation or idea
2. How it works/methodology/program phases/steps
3. Results to date/implications
4. Future plans/advice to others
5. Costs/resources needed
6. References

**RESEARCH**

1. Introduction/need for research
2. Conceptual or theoretical framework
3. Methodology
4. Results/findings
5. Conclusions
6. Implications/recommendations/ impact on profession
7. References

**Format**

The narrative proposal is limited to 2 pages, single spaced with double-spacing between paragraphs including tables, figures, and references. Margins are 1" top, bottom, and right, and 1.25" left side. The font should be Times Roman, 12 point, or equivalent. Tables should be prepared using the table function to facilitate conversion to HTML.
