

Manuscript Review

Fifty-four papers were submitted to the manuscript review process of the AAAE Southern Region Conference. All manuscripts were reviewed using a double-blind, peer review process by three reviewers from outside the Southern Region of the American Association for Agricultural Education. Thirty-four reviewers were selected based on their research expertise. Reviewers were assigned to each manuscript based on the type of research reported in the manuscript (quantitative, qualitative, mixed methods, etc.). For example, only reviewers who had published qualitative research were assigned to review qualitative research manuscripts. All reviews were conducted via e-mail and each reviewer completed 4-5 reviews. A total of thirty-six manuscripts were selected (67% acceptance rate).

We wish to express our appreciation to the following individuals who served as reviewers:
